Functional & Performance Testing Template

Model Performance Test

Date	03 October 2026
Team ID	PNT2022TMIDxxxxxx
Project Name	Implement Client Script & UI Policy (Incident) - ServiceNow
Maximum Marks	

Test Scenarios & Results

Test Case ID	Scenario (What to test)	Test Steps (How to test)	Expected Result	Actual Result	Pass/Fail
FT-01	Text input validation (Short description)	Leave Short description empty, then enter valid text, and click Submit	Empty value blocked with mandatory-field error; valid text accepted		
FT-02	Choice field validation (Impact / Urgency)	Select different Impact and Urgency combinations	Dependent fields (e.g. Priority) populate correctly as configured		
FT-03	Conditional field behaviour (State)	Change State to Resolved or Closed	Resolution fields become visible and mandatory		
FT-04	Script and policy load check	Open a new Incident form and check that policies and scripts are active	UI Policies and Client Scripts run without errors		
PT-01	Form response time test	Use a timer to check Incident form load and field-change response	Should be under 3 seconds		
PT-02	Multiple field-change speed test	Change several fields in quick succession on the form	onChange scripts respond without lag or errors		
PT-03	Bulk record load test	Create multiple Incident records one after another	Works smoothly without errors or slowdown
